October 28, 2008

Greetings from MULTI-PLASTICS, INC,

For over 26 years, MULTI-PLASTICS, INC. has marketed various products manufactured from ExxonMobil Chemical Co. to the narrow web flexo and flexible packaging markets. We are pleased and excited to expand our reach into these markets by collaborating through this new sales channel with ExxonMobil Chemical Co.

In today's fast paced and rapidly changing environment, MULTI-PLASTICS, INC. will offer you options and solutions, not excuses. We offer personalized, specialized and exceptional service from an experienced and knowledgeable customer service and sales team. Our 15 North American sales representatives will work with you to understand and help you achieve your individualized application needs.

We offer rapid and swift delivery options for any size order from seven strategically located North American converting facilities. By lowering your inventory costs and by providing slit-to-order rolls within shorter lead times will ensure the success of your business. This gives you a competitive advantage with the feasibility to react quickly to future opportunities.

The same high quality performance films you have always been accustomed to will now be available within your time constraints. Your MULTI-PLASTICS sales representative will be contacting you shortly to discuss this transition. In the meantime, feel free to contact us should you have any questions or if you have a new order to place. We look forward to working with you and to showing you how beneficial this program will be to your day-to-day business.
