**Section 1 - Chemical Product and Company Identification**

Chemical Formula:  Styrene Resin Blend  
Product Use:  Food and Non Food Related packaging  
Other Designations:  OPS  

MULTI PLASTICS, INC.  
7770 N Central Drive  
Lewis Center, OH 43035  

Manufacturer/Supplier  
Multi-Plastics Extrusion  
600 Dietrich Ave.  
Hazleton, Pa. 18201  

Emergency Information:  
USA: Chemtrec: 1-800-424-9300 or 1-703-527-3887  

**Section 2 - Hazards Identification**

**Emergency Overview**  
Solid, flexible plastic. Clear or various colors. Plastic odor. Dust clouds generated during processing may be explosive. Material burns vigorously and releases a dense, black smoke.

Dust and fume from processing can cause irritation of eyes, skin, and upper respiratory tract. Contact with molten material can cause thermal burns.

**Potential Health Effects**  
If dusts or fumes are generated by processing or if polymer is heated to melting:

**Eyes**  
Can cause irritation

**Skin**  
Can cause irritation. Contact with molten material can cause thermal burns.

**Inhalation**  
Can cause irritation of upper respiratory tract.

**Health Effects of Ingredients**  
As supplied, the colorants in this material are bound into the polymeric matrix and will not be released through skin contact or under anticipated conditions of use. However, if the material is processed in such a manner (i.e., grinding) that large quantities of fine dusts are generated or the material is burned, a potential for exposure to dust containing the colorants may be created.

**Medical Conditions Aggravated By Exposure to the Product and/or Components**  
Dust from processing: Asthma, chronic lung disease, and skin rashes.
**Section 3 - Composition / Information on Ingredients**

Complete composition is provided below and may include some components classified as non-hazardous.

**Section 4 – First Aid Measures**

**First Aid:**

**Eyes**
Dust from processing: Flush eyes with plenty of water or saline for at least 15 minutes. Consult a physician.

**Skin**
Dust from processing: Wash skin with soap and water for at least 15 minutes. Consult a physician if irritation persists. Molten polymer: If molten material gets on skin, cool rapidly with cold water. Do not attempt to peel material from skin. Get medical treatment for thermal burns.

**Inhalation**
Dust from processing: Remove to fresh air. If unconscious or severely injured, check for clear airway, breathing and presence of pulse. Perform CPR if there is no pulse or respiration. Consult a physician.

**Section 5 – Fire Fighting Measures**

**Flammable/Combustible Properties**
Material burns vigorously and releases a dense, black smoke.

**Fire/Explosion**
Dust or fines dispersed in the air can be explosive.

**Extinguishing Media**
Use dry chemical, water spray (fog), foam or carbon dioxide extinguishing agents. Manual fire fighting may be difficult due to the presence of thick smoke.

**Fire Fighting Equipment/Instructions**
Fire fighters should wear NIOSH approved, positive pressure, self-contained breathing apparatus and full protective clothing when appropriate.

**Section 6 – Accidental Release Measures**

**Small/Large Spill**
Use dry cleaning procedures. Recover using mechanical means.

**Section 7 – Handling and Storage**

**Handling/Storage**
Good housekeeping practices should be employed. Avoid generating dust.
*** Section 8 – Exposure Controls / Personal Protection ***

Engineering Controls
If dust is generated through processing: Use with adequate ventilation to meet the limits listed in Section 8, Exposure Guidelines.

Personal Protective Equipment
Respiratory Protection
If dust is generated through processing: Use NIOSH-approved respiratory protection as specified by an Industrial Hygienist or other qualified professional. Suggested respiratory protection: N95

Eye Protection
Wear safety glasses/goggles to avoid eye injury.

Skin Protection
Wear appropriate gloves to avoid any skin injury.

Exposure Guidelines
A: General Product Information
The ACGIH and OSHA have not developed exposure limits for this product.

B: Component Exposure Limits
ACGIH and OSHA have not developed exposure limits for any of this product’s components.

*** Section 10 – Chemical Stability & Reactivity Information ***

Stability
Stable under normal conditions of use, storage, and transportation.

Conditions to Avoid
Strong oxidizers, and aromatic and chlorinated hydrocarbons.

Hazardous Decomposition
Carbon monoxide, carbon dioxide, aldehydes and other partially oxidized hydrocarbons.

Hazardous Polymerization: Will not occur.

*** Section 11 – Toxicological Information ***

Health Effects of Ingredients
A: General Product Information: No information available for product. B:
Component Analysis - LD50/LC50
White mineral oil (8042-47-5)
Oral LD50 Rat: >5000 mg/kg

Carcinogenicity
A: General Product Information
None of the components of this product are listed as carcinogenic by IARC, NTP or OSHA. References to studies are listed below.

B: Component Carcinogenicity Classifications and References
Polystyrene (9003-53-6)
IARC Supplement 7, 1987; Monograph 19, 1979
Styrene-butadiene copolymer (9003-55-8)
IARC Supplement 7, 1987; Monograph 19, 1979
**Section 12 – Ecological Information**

Ecotoxicity
A: General Product Information: No information available for product. B:

Component Analysis - Ecotoxicity - Aquatic Toxicity
White mineral oil (8042-47-5) 96 Hr LC50 Lepomis macrochirus: >10000 mg/L

Environmental Fate: No information available for product.

**Section 13 – Disposal Considerations**

Disposal Instructions
Reuse or recycle material whenever possible. Material may be disposed of at a sanitary landfill.

US EPA Waste Number & Descriptions
A: General Product Information
Not federally regulated in the U.S. if disposed of "as is." Otherwise, characterize in accordance with applicable regulations (40 CFR 261 or state equivalent in the U.S.)

B: Component Waste Numbers
RCRA waste codes other than described under Section A may apply depending on use of product. Refer to 40 CFR 261 or state equivalent in the U.S.

**Section 14 – Transportation Information**

Special Transportation

Notes:
(1) When "Not regulated", enter the proper freight classification, "MSDS Number", and "Product Name" on the shipping paperwork.

Canadian TDG Hazard Class & PIN: Not regulated

**Section 15 – Regulatory Information**

US Federal Regulations
A: General Product Information
In reference to Title VI of the Clean Air Act of 1990, this material does not contain nor was it manufactured using ozone-depleting chemicals.

B: Component Analysis
None of the components are listed under SARA Section 302 (40 CFR 355 Appendix A), SARA Section 313 (40 CFR 372.65), or CERCLA (40 CFR 302.4).

SARA 311/312 Physical and Health Hazard Categories:
Immediate (acute) Health Hazard: No
Delayed (chronic) Health Hazard: No
Fire Hazard: No
Sudden Release of Pressure: No
Reactive: No
State Regulations
A: General Product Information
No information available for product.

B: Component Analysis - State
The following components appear on one or more of the following state hazardous substances lists:

<table>
<thead>
<tr>
<th>Component</th>
